The authors were contacted after publication to request an erratum of the Paper “Comparison of immune responses and intestinal flora in epicutaneously sensitized BALB/c or C57BL/6 mouse models of food allergy”

In the original publication of our paper, “Comparison of immune responses and intestinal flora in epicutaneously sensitized BALB/c or C57BL/6 mouse models of food allergy,” which appeared in the journal of *Food Science and Human Wellness*, Vol. 13, Issue 2, Pages 668-680 (DOI: 10.26599/FSHW.2022.9250056), the authors have identified several errors that require correction. The authors apologize for any inconvenience caused and appreciate the opportunity to clarify the following:

Error Description:

In Figure 4A, the pathological morphology of the jejunal villi in the B-OVA group was mismatched.

The animal ethics number of animal experiments was not provided.

Correction:

The correct Figure 4A is provided in the appendix.

The animal ethics number is “2021032001”.

These corrections do not significantly impact the overall findings and conclusions of the paper.

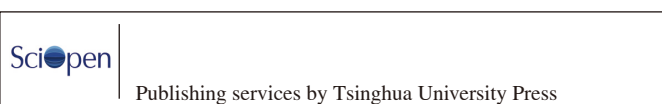

The authors would like to assure readers that the corrected figures do not alter the interpretations or validity of the research.

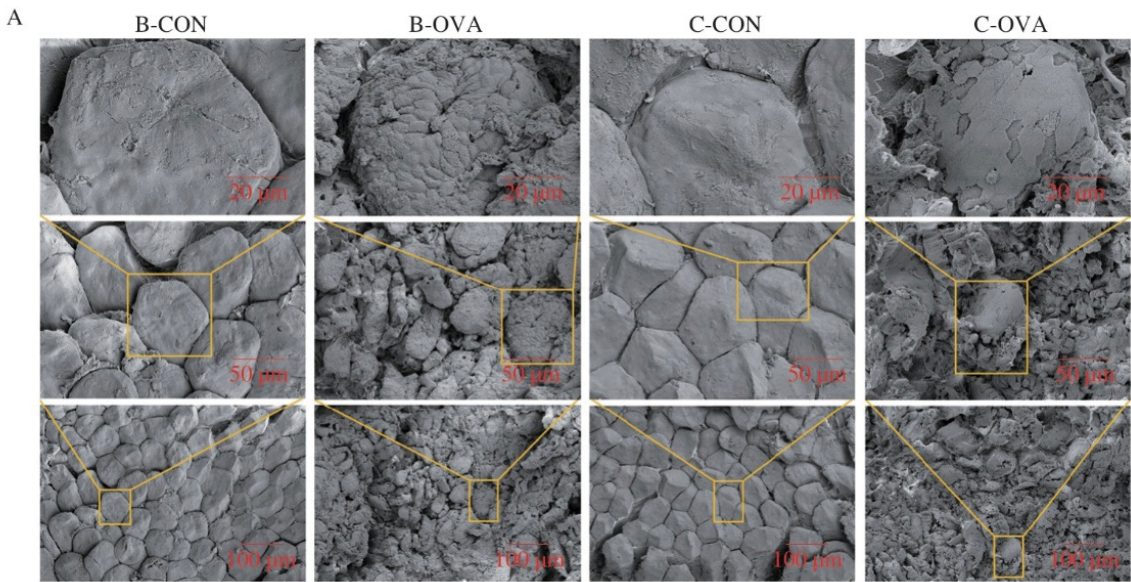

The authors sincerely apologize for any confusion these errors may have caused and appreciate the opportunity to rectify them.
